

Education Brochure

Featuring **almost 270 hours** of education, including cutting-edge clinical content developed specifically for Vision Expo

Presented by co-owners

West 2025

From the Education Planning Committee Chair

To stay relevant, it is important to be malleable, willing to change, take chances, and create new trends. Artists who invent entertainment for the time with their ingenuity, creativeness and boldness; chefs who are willing to color outside the lines, to reinvent delicacies or find new ways to represent the old; architects taking chances with designs that expand the imagination and create looks beautiful as they are functional, are all revered and celebrated. There is only one place that captures the fresh and yet historical feel so important for a vibrant destination; housing all of these ‘trends,’ and that is, Las Vegas.

Whether you visited this desert oasis recently or haven’t been in a while, the city is always able to provide something new and yet classic. We all like comfort and yet we also want excitement and novelty. There is a reason that Vision Expo West has settled on the strip of Las Vegas every September. The meeting feeds off the energy that is only experienced in this one-of-a-kind oasis. In fact, when I think of all the optometrists making their way to Las Vegas to share and gain clinical acumen, I am reminded of the rose of Jericho.

The rose of Jericho is not just a plant, it is symbolic of nature’s desire to survive in the most extreme conditions. The eye is another example of nature’s unusual designs and evidence of resilience to extreme environments. Think of the stress placed on the eye, the ocular surface, the neural connections needed to provide movement, clarity of sight and maintain homeostasis. The “resurrection plant” as the rose of Jericho is called, lays dormant, almost dead, and yet with the presence of trehalose this plant only needs water to be revived, renewed and to flourish. When optometry converges on the dry, hot city of Las Vegas, in September for Vision Expo, it is like the rain that washes over the rose of Jericho. Seeing all of our colleagues, meeting new ones, walking the expansive and ever-changing exhibit hall, is like fresh rain. This meeting makes and gives flowers to you and your patients. And this year is no different than any other.

The education committee has spent time curating a meeting that provides you the opportunity to further advance your clinical skills; through the workshops, interactive lectures and most of all the camaraderie that can only be experienced by the shared experience in Las Vegas. As in years past, we are committed to finding what is new and relevant in our profession and helping to start new trends. Be prepared to start your morning and end your day with a capacious amount of learning and interaction that truly makes Vision Expo West shine.

I look forward to seeing you rain down on Las Vegas, with me and the rest of the education committee. Together, we will create a bouquet highlighted by the lights of the city.

Quick Guide to Registering for CE

The Vision Team has created this guide to help make sure you can easily register for the appropriate courses to earn credits that you need for your license renewal.

The Conference Brochure includes the course schedule for each day of the CE program, the course schedule begins on page 10.

Each course includes a listing of the pending accreditations being offered for the course. For example, 10L1 Keynote - CLs Beyond Vision Correction has been submitted to COPE, Florida Optometry, NCLE, Florida Opticianry, and the New York State Opticians for CE Credit.

		COPE, FL-OPTOMETRY, NCLE, FL-OPTICIANRY, NY STATE OPTICIAN-CONTACT LENS-INTERMEDIATE
8:00AM -9:00AM	Keynote - CLs Beyond Vision Correction Barnett	10L1 - FREE COPE, FL-OPTOMETRY, NCLE, FL-OPTICIANRY, NY STATE OPTICIAN-CONTACT LENS-INTERMEDIATE

There is also an Accreditation Legend at the bottom of the schedule on Day 1. The Accreditation Legend can help you verify that you have selected the courses that are appropriate for your license renewal.

Accreditation Legend:

ABO – General Knowledge/Ophthalmic Level 1/Ophthalmic Level 2/Ophthalmic Level 3; AOA – AOA Paraoptometric Commission; COPE – COPE/COPE – TQ; Florida State Board of Opticianry - FL Opticianry/FL Opticianry – Technical/FL Opticianry - Contact Lens; Florida State Board of Optometry – FL Optometry/FL Optometry – TQ; NCLE – General Knowledge/Ophthalmic Level 1/Ophthalmic Level 2/Ophthalmic Level 3; New York State Optician – Dispensing/Contact Lens - Basic/Intermediate/Advanced; Orals, TPA (Therapeutic)

We are continuously submitting all of our courses to the various National Accreditation Agencies and State Boards. The list of Approved and Pending courses for each accreditation agency and state board are listed on the Vision West website – Education - Policies page (VEW25.COM/POLICIES). We update the lists on a weekly basis, up until the show begins.

We hope that this quick guide will help you with the selection of the courses that you need to attend for your license renewal. Please remember to also check with your State Board to make sure you have registered for the appropriate courses that you need to satisfy your State's license requirements.

If you need to make changes to your course registration or have any questions, our Client Services team can be reached via phone at (800) 811-7151 | (203) 840-5610 or via email at inquiry@visionexpo.com

We look forward to seeing you at the show!

Clinical Content

Custom designed for Vision Expo by the Education Planning Committee, our 2025 program is organized by key content areas including glaucoma, posterior segment/retina, anterior segment/dry eye, surgical/co-management, and systemic disease and diabetes. Here you will discover courses specifically developed to immerse you in the most cutting-edge developments for better patient care. Learn from the most knowledgeable experts in the field of optometry as they unveil leading-edge technology and the latest trends in the diagnosis and treatment of common eye diseases. 18 clinical tracks with over 130 hours of content will keep you at the forefront of the industry.

This activity is supported
by unrestricted
educational grants.

Education Highlights

Summits

Introducing the all-new 2025 Summits—a series of No-Fee CE accredited programs designed to give a brief synopsis of the hottest issues on a broad spectrum of essential topics in eye care in a one-hour format. These sessions offer a unique opportunity for optometrists to learn about several key topics from leading experts and explore the latest technology advancements and clinical best practices. Join us in an interactive learning environment, where you can engage with peers, hear real-world cases, and gain practical skills to enhance patient care.

Please refer to the CE Program grid schedule on Thursday and Friday, specifically in the 12:00-2:30pm time slot for course details – **Course 20C7 & Course 30C6**.

OPTOMETRISTS ONLY. CE CREDITS AVAILABLE.
FREE – ADVANCE REGISTRATION REQUIRED. FIRST COME, FIRST SERVE.

Vision Series

This all-new-for-2025 format invites you to grab a bite to eat or drink and continue learning over breakfast or lunch. Take a break from the exhibit hall or formal classroom learning as industry leaders address the latest clinical innovations in a relaxed and collaborative learning environment. Then put theory into practice by heading back into the exhibit hall to connect and build on your classroom learning.

OPTOMETRISTS ONLY. NOT FOR CREDIT.
FREE – ADVANCE REGISTRATION REQUIRED. FIRST COME, FIRST SERVE.

Please check our website west.visionexpo.com for the list of Vision Series sessions.

Contact Lens Innovation Symposium

Kick off this year's education with a free, high-impact mini symposium featuring global contact lens experts. This informative and well-attended program will explore the current state of the profession, emerging lens designs and materials, and innovative supporting products. Gain insights into the future of the contact lens industry, including strategies to overcome industry disruptors, and discover how AI and modern technology are shaping clinical practice.

CONTACT LENS INNOVATION SYMPOSIUM IS DIRECTED BY SHALU PAL, OD

New Technology Showcase

Vision Expo is committed to the advancement of scientific knowledge for the practical purposes of diagnosing and treating ophthalmic maladies. With one of the largest exhibition halls dedicated to managing vision, attendees are introduced to all that ophthalmic industry has to offer. Furthermore, didactic education enables all that attend an opportunity to realize practical applications, of these advanced options, for their practice. The New Technology Showcase will unite the exhibit hall and the didactic to create a space where learning becomes hands-on. Furthermore, with the new West Coast Case Challenge, our experts will present cases where this technology has assisted in the management of common and not so common patient diagnoses.

NEW TECHNOLOGY SHOWCASE IS DIRECTED BY MARC BLOOMENSTEIN, OD

Refractive Program

Collaborative care is a hallmark of any medical profession and is a stalwart within optometry and ophthalmology. Whereas most clinicians can generally manage any ophthalmic condition in their practice there are times when surgical intervention is necessary and thus cooperative care is needed. The collaboration between optometry and ophthalmology is based on communication, clinical acumen, and mutual respect. It is with this in mind that we have partnered with two leading ophthalmologists to provide continued education focused on current trends within refractive and cataract care.

REFRACTIVE PROGRAM IS DIRECTED BY MARC BLOOMENSTEIN, OD

Education Registration

- Course handouts will be available online prior to the Education Program. They will not be available onsite. After you register for your courses, you will be able to print your own course handouts and bring them to the Education Program. Course handouts will also be available online for one month after the program and on the Vision Expo Mobile App.
- In an effort to improve the Education registration process, badges will not be mailed. Please bring your confirmation letter with barcode onsite to Registration to have your badge and course itinerary printed when you arrive at the conference. This will ensure that you have the most up-to-date course information on your badge barcode and course itinerary, including room numbers.
- Your badge barcode will have all of your registered courses embedded in it, which is required for course entry. If you make any course changes onsite after you have already printed your badge and course itinerary, you will need to get a new course itinerary printed so that your current courses are listed, including room numbers.
- After you attend your course(s), please complete the session evaluation for each course. The session evaluations are available on the Vision Expo website and mobile app. After completion, you will be able to send yourself the CE Letter via email verifying your course attendance.
- After the Education Program, you will receive a CE letter via e-mail verifying your course attendance. Please submit this CE letter to your state board/national accreditation agency for license renewal. If you did not supply an e-mail address when you registered, please update your registration record by calling Client Services at 1.800.811.7151.
